A fun day for golfers. Your participation helps toward the Foundation's goal of being here when you need us.

In 1946, Lompoc Hospital became the first operating Hospital District in the State of California. The Hospital District has grown since that time, but ownership has remained in the hands of the residents of the healthcare district.

On September 13, 2005, voters in the district set a state record by passing a bond measure with 87% voter approval to replace the existing hospital. This was required to comply with the new state seismic standards for acute hospitals and to maintain access to emergency and critical care for district residents.

Construction of the new hospital began in 2006 and is near completion. Bond proceeds cannot be used for purchasing movable furniture or equipment, therefore proceeds from this year's tournament will be used for that purpose. The current estimate to furnish and equip the new hospital is approximately \$6,000,000.

Individuals and members of the community are all being invited to join in meeting the challenge of continuing to provide quality healthcare to residents of the Lompoc Healthcare District.

I am unable to attend. Enclosed is my tax-deductible donation of \$ _____
